

GLOBAL *n*²[™]
nitrogen tire inflation program

N2.RSR-GLOBAL.COM

GLOBAL **n²**TM nitrogen tire inflation program.

Nitrogen helps to remove the moisture rich oxygen from the vehicle's tires and replaces it with a dry, larger molecular structured nitrogen gas.

Statistics suggest that less than 85% of drivers check their tire pressure on a regular basis.

GLOBAL **n²**TM Benefits:

- **Increases tire life up to 30%.**
- **Improves fuel economy by 3% to 6%.**
- **Reduces the chance of tire failure up to 50%.**
- **Improves braking and handling.**
- **Reduces running tire temperatures.**
- **Reduces wheel corrosion.**
- **Reduces emissions and use of landfills.**
- **Improves performance & safety.**

Road Hazard Tire Service Terms:

- 36 months or 60,000km coverage from the date and odometer reading at time of delivery.
- Aggregate of up to \$1000.00 (inclusive of taxes) towards damaged tire services, inclusive of reimbursement of up to \$50.00 of road side assistance services.

Total Savings: \$235.37/year*

Tire Savings /year: \$87.49

Fuel Savings /year: \$147.88

* Based on driving 22,000km/year with a vehicle that is rated at 9.5L/100km at a fuel cost of \$1.25/L with replacement tires costing \$208/tire.
